Dear Commissioner Lopez,

Greetings!

I hope this letter finds you well. I am writing to formally request a meeting with you in your office on August 3, at your earliest convenient time, to discuss a matter of utmost importance concerning the rampant illegal operations and abuses involving VAS holders.

Given the gravity of the situation, it is imperative that we convene and address this pressing issue promptly.

In light of the complexity and sensitivity of the matter, we would greatly appreciate the presence of two additional key individuals at the meeting, namely, Director Imelda Walcien, former Depcom Edgar Cabarrios, and possible, with your Two (2) Deputy Commissioner. Their expertise and insights would undoubtedly prove invaluable in formulating a comprehensive plan of action.

Thank you for your attention to this matter. We look forward to the opportunity to meet and address these pressing concerns together.

Sincerely,

HON. ATTY. ELLA BLANCA B. LOPEZ

Commissioner

NATIONAL TELECOMMUNICATIONS OFFICE

NTC Building, East Triangle

Diliman, Quezon City

Dear Commissioner Atty. Ella Blanca B. Lopez,

Warm greetings!

Allow us first to extend to our association's warmest appreciation for the opportunity to have an in-depth and very much enlightening discussion with you, Deputy Commissioner Alvin Bernard Blanco and Director Imelda Walcien, to discuss our association's concern over the increasing numbers of value-added services (VAS) operators sprouting in all the areas in the Philippines.

Previously, we filed several complaints against VAS operators setting up their own infrastructures including laying out of fiber optics cables in utility poles and installing wireless antennas for their operations. However, despite of our complaints, the same violations are much prevalent in practically all of their operations to the detriment of our members who are subject to stringent monitoring by various agencies of the government.

While our members adhere to the principle of free market competition, the laws and/or rules governing the operation of each respective business entities must be applied accordingly and promptly specially in the midst of rampant violations of the VAS operators. From our discussion which incidentally covers a wide range of topics and issues affecting the cable TV and telecommunications industry, it is clear, that a simple VAS operator is not allowed to use their own infrastructure including the laying out of cables over utility poles and the utilization of radios or wireless devices for their operations, while cable TV operators with VAS licenses are allowed to use their infrastructure to deliver internet services to the subscribers.

In view of the foregoing, we respectfully and urgently propose for your office to issue a more specific guidelines to all VAS operators with NTC license as simple VAS licensees to strictly follow the rules for their continuing operations, particularly, that they are not allowed to lay cable over utility poles and to install radios/wireless devices for their operations, and that any violations over the same will be subject to police actions, including the immediate removal and confiscation of the wires and radios used for their illegal operations without prejudice to other liabilities as provided by law. With all due respect, we also propose that a directive be issued to all regional offices to seriously monitor the operations of the VAS operators in their jurisdiction, and a directive to all electric companies and electric cooperatives not to allow a joint pole agreement with VAS operators.

In fine, we expressed our continuing support to your office and welcome the proposition for a regular meeting with your office, to share ideas and knowledge for the betterment and improvement of the cable TV and telecommunication services for the benefit of our countrymen specially in the unserved/underserved areas in conformity with our President's aspiration and call for full digitalization of small business and government services.

Dear **Mrs. Tamano**:

Thank you for your letter dated 16 August 2023.

Rest assured that the NTC will take into consideration your inputs on your concern over the supposed increase in the number of VAS operators throughout the country.

Kindly see the attached file for your reference.

Thank you and best regards.

Dear Commissioner Lopez,

Greetings!

I hope this letter finds you well. As per our discussion during our previous meeting, I am writing to submit a comprehensive list of illegal Value Added Service (VAS) operators that require your attention and further investigation. These operators have been operating with and without the necessary licenses and have raised concerns within our community.

Attached to this letter, you will find a Google Drive link that contains detailed information, including the names, location/address, marketing peripherals and pictures, about each of the illegal VAS operators on the list. This information will assist your office in identifying and taking appropriate action against these operators who are operating outside the bounds of the law.

We kindly request your office to investigate these operators and take appropriate actions to ensure compliance with the relevant regulations.

Thank you for your dedication to upholding the law and protecting the interests of our community. We look forward to your prompt response and action in this matter.

NATIONAL TELECOMMUNICATIONS COMMISSION

3rd Floor, NTC Bldg., BIR Road, Diliman
Quezon City

Dear Commissioner Lopez,

Greetings!

I hope this letter finds you well. I am writing to respectfully request a complete list of all Value-Added Service (VAS) licensees granted by the National Telecommunications Commission (NTC).

We kindly request that the list of VAS licensees include the following details for each licensee:

Licensee Name

License Type (e.g., Content Provider, SMS Gateway, etc.)

License Issue Date

License Expiry Date (if applicable)

Areas of Operation of the Licensee as approved by the NTC

Contact Information of the Licensee (if available)

We understand that compiling this information may require some time and effort, but we believe it is in the public interest to allow us to have access to such in consideration of the freedom of information. If there are any fees associated with obtaining this information, please inform me in advance, and we will be prepared to cover any reasonable costs.

We appreciate your attention to this matter and your commitment to transparency and accountability within the telecommunications sector. Your prompt response to this request would be highly valued and appreciated.

Thank you for your time and consideration.

Sincerely,

ESTRELLITA JULIANO - TAMANO, MBA
